FOR PANAMA CANAL

Chesterfield Courthouse, Va., Aug. 29.

An auburn haired boy, talking swiftby but clearly, revealed on the witness
stand today, to the surprise of both
defense and prosceution, in the trial of
Henry Clay Beattle. Jr., for wife murder, that he had observed several blood
spots along Midlothian turnpike where
the crime occurred. Hitherto it had
been presumed no blood spot except
one, near the place at which Mrs.
Beattle is supposed to have succumbed, existed.

The prosecution only for the
purpose of stating that he had found a
hairpin, but his testimony as a result
of the questions of counsel for the defense soon established that he would
to an important witness for the defense. In the meantime the prosecution will gather over night witnesses
to show that many people looked for
other blood spots and found none.

Prosecution Nearly Ready to Rest.

The prosecution announced just be-

d what he told the jury in response a question of counsel for the de-ise entirely upset the plan of the monwealth to rest its case today, osccutor Aldenburg announced that would be necessary for him to call at least seven or eight witnesses to controvert the boy's testimony.

On direct examination by Prosecutor Wendenburg, when the latter was seeking to show where the boy found a certain yellow hairpin similar to that worn by Mrs. Beattie, Robertson referred to its distance from "the first blood spot."

The revelation concerning the presence of more than one blood spot is in line with the contention of the defense that all blood on the road oozed from the car in which Henry C. Beattle, Jr., alleges his wife was shot. The prosecution's theory has been that the large blood spot in the road at the place where Mrs. Beattle is alleged to have been killed resulted from a murder committed outside the machine and not in the seat, as Henry alleges,

The presecution has pointed out by winesses that no blood was found on either running board of the car, and that the dustpan underneath the car would have caught any blood that trickled through the front part of the machine, and that all the blood visible had hardened on the floor of the car just beneath the steering wheel.

line tomorrow it would rest its case.

The Robertson boy, a brother of a reporter on one of the Richmond newspapers, has been employed anout the court room in carrying his brother's manuscript from the courthouse to a telegraph office nearby, and as he finished in his witness chair he grabbed several sheets of matter written by his brother about his own testimony and dashed to the improvised telegraph offices in a barn about 75 yards away. Hartford, Conn., Aug. 29.—In the senate the afternoon was well taken up with debate over the granting of a charter for a trolley line between Huntington and Bridgeport via Trumbull, the same charter which the house had voted after the railroad committee had unfavorably reported a bill which sought to regulate trolley fares in Huntington. The debate was mainly between Senator Judson, who made a very stirring though unsuccessful plea for the charter that his constituents might have means of reaching Bridgeport which is now denied them, and Senator Marsden of the railroad committee.

Hartford, August 29.—A formal tatement made public today by officers of the Connecticut state grange elative to the controversy over the visit of President Taft to the Connecticut state fair next week, says that "in declining to establish a so-called grange day at the fair no insult to President Taft was intended or implied, as we honor the head of the nation as such, regardless of any personal injury he may have helped inflict upon the cause of agriculture. If Canada takes favorable action and the reciprocity bill becomes a law, farmers in Connecticut, in common with those of every other northern state, will undoubtedly be heard from in no uncertain manner. Free trade for farmers' products and a high tariff for the manufacturers will never again be tolerated for any length of time in this country." NOMINEE FOR GOVERNOR

Middletown, Conn., August 29.—That the officials of the New York, New Haven & Hartford railroad are still of the opinion that the wreck which occurred south of here Sunday night in which one person was fatally hurt and sixty or more injured, was the result of someone's having pulled the spikes out that held the rails, is evidenced by a statement issued tonight. The statement is as follows:

Could Carry Heavy Traffic. of yesterday that the wreck was caused by mallciously removing track fasteners. The track itself is in first class condition and capable of handling much heavier power and equipment than are being used on it. The three rear cars remaining on the rails and four more remaining alongside of the rails, do not indicate anything approaching high speed at the time of the accident. The unboited fastenings, the pulled spikes from either side of one of the rails, with the clear holes in the ties, establish the correctness of the railroad's original statement."
